Hello,

Greetings from Osmosys!

Congratulations once again on your selection at Osmosys as Associate Software Engineer (ASE).

As shared in our JD, we would like to offer you the "6 Months Paid Full-Time Internship" from 16-Jan-2024 to 31-Jul-2024. You will be given a stipend of Rs 12,000/- per month during this period. Osmosys has in place an internship model for the students of reputed colleges working with us. We work closely with the college TPOs to make this happen without any conflicts.

The mode of Internship is Remote. During the internship, we will be guiding you through multiple Self-learning courses with Continuous Assessments. After the initial learning, you will start working in our real-time projects under our Team Leaders & Management. During the 6 months, you will be given breaks for your academic examinations based on the request from your TPOs. We keep in touch with the college TPOs to understand the exams schedule for each college. You will be given a continuous break of 1 or 2 weeks based on the duration of the exams.

As a pre-requisite to our internship, you will have to complete the CS50 course offered by Harvard by the end of December 2023. This course provides a broad and robust understanding of computer science and programming ([CS50: Introduction to Computer Science | Harvard University](#)). Passing our exam based on this course is mandatory to start the paid internship. Guidance will be provided by our team in completing this course. The CS50 guidance sessions will start in the first week of December 2023. The tentative date for the Exam in CS50 is in the first week of January 2024.

Our guidance session timings will be fixed based on the college class timings. Colleges are requested to schedule their classes accordingly to help their students to do the internship without interruption. You will be given the flexibility of work hours with a commitment to put in 9 hours of work every day (Monday – Friday).

Note: The offers made to you for Full time employment as ASE shall be honoured by the company even in case of your not opting for internship at Osmosys. However we believe that the internship at Osmosys will give you a head start in your career at Osmosys.

Please send in your acceptance to join the internship by 30-Nov-2023.

Warm Regards,

Shruthi A

I accept the offer. I am looking forward to working with Osmosys. Thank you for your trust in me, and I eagerly anticipate the start of this exciting journey.

Thanks & Regards,

Abhinav Srivastava
